Summary:

Software Engineer, very passionate about constantly learning new topics related to computing and programming. Lifelong background in technology, started with repairing phones as a teenager, to now tackling the software side. Efficient with demonstrating creativity through coding, whilst trying to achieve the simplest solution. Taking pride in my work ethic, constantly trying to achieve and push confinements, as I set no boundaries for myself. Display a growth mindset, believing there are infinite possibilities achievable.

Technical Skills:

- **HTML** - Advanced understanding of the correct structure of HTML5 documents, including creating functioning webpages, with W3C valid pages. Proficient handling of elements, tags and correct format.
- **CSS** - Styling and developing well formatted web pages, including using a variety of fonts, style types and built-in commands.
- **Bootstrap 5** - Making use of the Bootstrap 5 framework to further bolster my CSS understanding, helping create better looking websites.
- **PHP** - Using PHP with websites, such as form handling, data processing and changing data in files. Currently increasing my proficiency in PHP with my university course.
- **Python** - Thorough understanding of data types and structures, including how and when to use which structure. General understanding of creating efficient algorithms to search and sort through data.
- **Javascript** - Adding responsiveness to websites. Also, Object Oriented software development using Javascript to create solutions to tasks.
- **Git** - Proficient with version control, branches and pushing/pulling materials.

Experience:

Costa Coffee - Cribbs Causeway Drive Thru, Bristol
May 2022 - October 2022
- Job roles included; **handcrafting numerous** drinks from memory, serving customers and treating them with **respect**, always being available to **help**, restocking supplies and handling food/drinks in a **safe manner**.
- Successfully worked in a **team** of **5 to 8 members** per shift, able to **communicate well** with teammates and handle issues effectively, such as coordinating tasks in **high pressure** situations, serving 250 customers a day on average.
- Consistently **achieved management goals** of making and delivering drinks in a timed manner. The average time expected per drink was 1 minute 30 seconds, upon which the majority of the time I was able to **execute this task**.
- Frequently **received positive feedback** from customers, regarding friendliness and speed, leading to employee of the month from my manager.

Tesco - Gloucester Road, Bristol
April 2022 - September 2022
- Job roles included; working in a timely manner to pick out **customer deliveries**, refilling stock, serving customers and **helping** with any requests.
- Consistently signed up for **overtime**, which demonstrated **commitment** to my work and fellow colleagues.

Pizzaface - Portland Road, Brighton
2020 - 2021
- Jobs roles included; **delivering food** to customers, **helping** with cooking pizzas, running the shop, **efficiently working** in a time-conscious environment.
- Working in a shop ran in **teams of 6 people**, helping the **workflow** during stressful situations, whilst also **completing my own tasks**.
- Responding well to **administration**, in a timely manner to **prioritize customers** expectations in times of rush.

Co-Operative - Ham Road, Shoreham-By-Sea
2019 - 2021
- Job roles included; **refilling** stock, **helping** customers, working to a **deadline**, running the tills, being able to **communicate efficiently** and working well in a **team**.

Education:

Current studies: September 2021 - June 2024
University of the West of England, Bristol, England
BSc (Hons) Software Engineering for Business
This degree focuses on understanding crucial topics of software development across multiple programming languages, using Agile development methods.
Accredited by **TechSkills**.

November 2022 - March 2023
Front End Web Development Skills Bootcamp - EdX
Remote, with bootcamp certificate will be awarded upon completion
This bootcamp further develops my understanding of Front End development, using HTML, CSS and Javascript to create reactive web applications.

Previous studies: Finished May 2021
Varndean College, Brighton, England
3 A-Levels in; Biology, Business and Psychology

Finished June 2019
Shoreham College, Brighton, England
9 GCSEs; including Maths and English
